and Plate

**Holder with club insert Fitted**

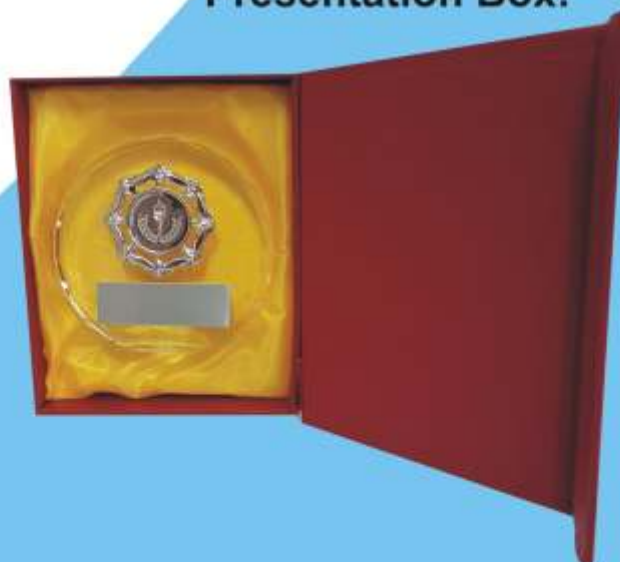

A once off logo artwork set up fee applies  
to new logos not on our system of \$48.00.

Once on our system, the logo can be used for any of our products.

We developed our crystal range having developed the print method ourselves here in S.A. To print on the crystal we needed a flat object, therefore it was required to import our own crystal designs. By doing this we have cut out the middle man and developed a true quality, extremely cost effective range, which comes with its own presentation box.

To further expand the range we have added the above design which we believe will become the most popular of all designs due to its price, quality and adaptability.

**These awards come with  
Presentation Box!**

**CC2071G or S - \$13.50ea**

**CC2071 - P - \$16.80ea**

A once off logo artwork set up fee applies to new logos not on our system of \$48.00.  
Once on our system, the logo can be used for any of our products.

We now have in house an incredible new printing process. Using non solvent inks (good for the atmosphere)  
which are water proof, sun proof and very scratch resistant.

We are obtaining a fantastic quality print on most substrates (eg: wood, glass, acrylic, plastic, brass,  
stainless steel, aluminum, etc).

Our print process replaces both pad printing & screen printing with the huge advantage of running  
direct from our computer bypassing both pads  
and screen requirements.

Brass & Stainless Steel plaques now available for outdoor use!
